Harmony Now Accepting Applications for the 2015-16 School Year *Texas' largest charter system announces new application period*

HOUSTON – Harmony Public Schools (HPS), the largest charter school management system in Texas, is currently accepting applications for the 2015-2016 school year. The application period ends Sunday, March 15, 2015. Applications can be submitted online at each campus' website or in person at the campus of interest. If the number of submitted applications exceeds the number of spaces available at a given campus, a lottery will be held at the end of March 2015.

Harmony Public Schools operates high performing K-12 public charter schools in Texas that focus on math, science, engineering, and computer technologies to provide opportunities for underserved communities. Now in its 15th year, **HPS** serves more than 28,000 students across the state. With a college acceptance rate of 100 percent and a near zero percent drop-out rate, **HPS** has earned the reputation of providing a distinct, high-quality education. Twenty-five Harmony schools are designated as T-STEM (Texas Science Technology Engineering and Mathematics) Academies. Additionally, the system hosts the largest international science fair in the country, called [I-SWEEEP](#) (International Sustainable World Energy, Engineering and Environment Project).

The mission of **HPS** is to prepare each student for higher learning in a safe, caring and collaborative atmosphere through a quality learning-centered educational program. It's the **HPS** goal to help every one of our students grow into a successful and productive citizen. Students, parents and staff work in harmony to create a strong community of success. Last year, more than 50,000 applications were received and there are currently more than 30,000 students on waiting lists. **Harmony Public Schools** administration projects that total student enrollment will reach more than 30,000 for the 2015-2016 academic year. A full list of campus locations and their corresponding websites can be found at www.harmonytx.org.
